Honda VF 750 F Technical Specifications - Ultimate Specs

In 1983, its rookie year as an AMA Superbike, the VF750F won eight of 14 Nationals, and would begin a legacy of Honda V-4 dominance unequaled in AMA Superbike racing. That original Interceptor, through its racing and sales success, proved that Honda's integrated design approach worked as well on the track as it did on the street.

The Honda VF750F was a street bike designed by Honda from 1983 to 1985. It had an 86 hp (64 kW), liquid-cooled, V4 engine which sported dual overhead cams (DOHC). The V4's were started a year before with the 1982 Honda Magna VF750C and Sabre VF750S but were adapted for the VF750F in 1983 by reducing the six speed transmission to a five speed because of the change from shaft drive to chain.
